Joint Mathematics/Economics Major
Honors Requirements

New program beginning FA08

To graduate with honors in the Joint Mathematics/Economics major, in addition to the major requirements, you must complete the following:

The Joint Mathematics and Economics Honors Committee will determine the level of honors based on the student's GPA in the major and the quality of the honors work.	
	At least one quarter of the Student Colloquium (Math 196) • Only offered in the fall quarter
	The honors section of at least one upper-division ECON course: • ECON 100AH • ECON 100BH • ECON 100CH • ECON 110AH • ECON 110BH • ECON 120AH • ECON 120BH • ECON 120CH

	An Honors Thesis (Math 199H or Econ 191A-B) conducted over two quarters of the senior year under the supervision of a faculty advisor
	 • Math 199H
	     o For declared Joint Math/Econ majors in the mathematics department (MA33)
	     o Enrollment by special permission; check with the undergraduate advisors in the mathematics department.
	 • Econ 191A-B
	     o For declared Joint Math/Econ majors in the economics department (EN28)
	     o Enrollment by special permission; check with the undergraduate advisors in the economics department.
	 • Completed thesis must be approved by the Joint Mathematics and Economics Honors Committee and presented orally at the Undergraduate Research Conference or another appropriate occasion.

	Minimum GPA of 3.0 overall.
	GPA of 3.5 or better in the upper division courses required for the major.
	GPA of 3.5 or better in the following classes: • Math 196 • Economics honors course • Econ 191A-B or two quarters of Math 199H
Note on honors section: Admission to the honors sections is by special permission; check with the undergraduate advisors in the Economics Undergraduate Student Services Office. Note that we generally offer the 'A' honors sections in the fall, the 'B' honors sections in the winter, and the 'C' honors sections in the Spring.
