Dear Economics Students,

I hope that you have had a good start to the Spring quarter.

I am writing to inform you that the Department of Economics has submitted a proposal to the Academic Senate to sunset the BS in Management Science major (EN26) over the next four years. This proposal is currently under review. Once the Academic Senate has made a decision we will communicate this with you.

I would like to reassure you that the sunsetting process will not affect students currently declared in the Management Science major. The Department of Economics will continue to offer the courses required for the major. Students currently declared in the major will still be able to take the courses needed to graduate with a BS in Management Science.

The Economics Undergraduate Advising Team is available for questions and to assist with degree planning. Please do not hesitate to contact them through VAC with your questions.

The Academic Senate's formal notification can be found at this link: <https://economics.ucsd.edu/undergraduate-program/major-minor-requirements/Disestablishment-Notice-to-Econ.pdf>

I appreciate your time and wish you continued success during the Spring quarter.

Sincerely,

Giacomo Rondina

Vice-Chair of Undergraduate Studies
